HIGH PERFORMANCE LUBRICANTS

Product:	5w/30 Longlife VW 504/507
Product code:	(PLA530199LSP)
Revision:	Version 1 2018

Product Description:

5W-30 Synthetic Engine Oil 507 is a new generation fully synthetic multi-grade engine oil formulated for use with modern petrol and diesel engines. Careful selection of high-quality base oils and use of advanced additive technology ensures that 5W-30 Synthetic Engine Oil 507 maintains optimum performance of engine components, including diesel particulate filters (DPF) where present, over extended drain intervals. 5W-30 Synthetic Engine Oil 507 is engineered to provide long term protection to emission control systems. Protecting these systems helps to maintain optimal emissions cleanliness throughout the life cycle of an engine, increasing environmental friendliness.

Benefits:	Applications:
<ul style="list-style-type: none">• Ensures lubricant performance over extended drain intervals• Maintains very high standards of engine cleanliness• Exceptional long term anti-wear and oxidation stability• Superior performance under both high temperature and low temperature conditions• Excellent start up protection• Improved fuel efficiency• Effective environmental protection	<p>Suitable for use in most petrol and diesel engines meeting the Euro IV emission standard with or without diesel particulate filters. Particularly recommended for Volkswagen and Audi engines with variable service intervals (WIV) and for other compatible vehicles that require a fuel-efficient lubricant.</p>

Typical Test Data:	Product Profile:
Density @ 15°C - 0.850	ACEA C3
Flash Point (°C) - 200	API SN/CF
Kinematic - 11.8	BMW LL-04
Viscosity cSt @ 100°C - 77	MB 229.51
Kinematic - 77	PORSCE C30
Viscosity cSt @ 40°C - 8	VW 504, 507
Pour Point (°C) - -45	
Total Base Number (mg KOH/g) - 160	
Viscosity Index - 160
